DETAILED ACTION

Election/Restrictions

1. Claims 1-64 are generic to a plurality of disclosed patentably distinct species comprising fabric softening compositions and methods of using same. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of fabric softening composition, as in an example, even though this requirement is traversed. One method commensurate in scope with the elected composition will be searched and examined as well.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (703) 305-5599.
